

# Caregiver Pager With Bed Exit Alarm For The Elderly

## Easy To Use Caregiver Alert!

### No Noise in Room!

The silent resident Exit Alarm eliminates noise at the bedside or in room, that may be bothersome to residents instead only alerting the caregiver through the pager.

### Caregiver alerted by pager

The Smart Caregiver TL-5102MP Caregiver Pager With Bed Exit Alarm for the elderly alerts the caregiver of the resident's activity via pager when a resident is about to get up from bed, chair or leave the room.

### Place it where you need it

Powered by (3) AA batteries (not included) or an optional AC adapter the Exit Alarm can be placed next to the bed or at a doorway. When the sensor field detects movement the pager is activated - notifying the caregiver.

### Features:

- Quiet - No alarming monitors
- Easy to set up - insert batteries and it's ready to use
- Pocket sized pager - Easy to carry
- Exit Alarm can be placed by bed or doorway to monitor residents activities
